

Sigma Light - The new touch sensitive, easy-to-use hot beverage machine with added advertising capabilities

Sigma LIGHT

The innovative vending solution

The new retail vending experience

The Sigma Light combines easy-to-use menu selections, advertising opportunities and High Street quality coffee in one sleek retail package.

Twelve clear illuminated buttons with drink imagery and colour coded icons allow easy access in busy public site locations, simply choose the drink you want, press and go - only lingering to view the latest advertisement on screen. The 12-inch integrated screen enables rolling adverts or still images to be viewed 24 hours a day, 7 days a week with no interruption.

Whether you want to promote your latest corporate message, promote a new product in the neighbouring snack machine or simply want a creamy Latte - the Sigma Light can deliver.

Features

Capacity
415
250ml cups

- Stylish, sleek looks with strong accent lighting in the drink dispense station
- Illuminated twelve button touch sensitive menu selection
- Fully integrated 12-inch advertising screen
- Opportunity to display your own corporate messages
- Advertising capabilities 24/7
- FREE audit software for downloading drink sales information from USB
- Energy management software reduces power use when inactive
- Single fresh brew, double fresh brew and bean-to-cup / fresh brew models available

Advertising Opportunities

The Sigma Light offers additional revenue opportunities with its advertising capabilities.

The 12-inch built-in screen displays rolling still images or a series of video advertisements that can be constantly screened during drink sales, promoting products from nearby snack machines, advertising nearby facilities or services and displaying in-house corporate messages.

The machine becomes a focal point for all your advertisements and messages whilst attracting increased vending sales for you.

Utilise the 12-inch screen for pricing and corporate messaging!

Advert example

Simply switch between still images and rolling adverts with the easy-to-use remote

Monitor Performance

Measure drink trends, monitor machine performance and cash using simple USB technology.

Why waste time entering data when you can download all the audit information from USB straight onto your PC?

Green Credentials

- LED lighting – no more neon gas filled tubes to replace
- Unique, in-built energy management system reduces power consumption by up to 30% during inactive periods
- Use of recycled materials wherever possible
- Permanent, refillable ingredient canisters, paperless brewers and own-cup or bottle-fill facilities mean less packaging, wastage and ultimately cost
- UK manufactured with shorter logistics paths resulting in a reduced carbon footprint
